§1. Guarantor

1. The guarantor is Sluxer Energy Sp. z o.o.; its obligations within the territory of the Republic of Poland are performed by Sluxer Polska Sp. z o.o.
2. This warranty covers products of the Home 14/15/16/28/30/32 series.

§2. Warranty period

1. The warranty is valid for 10 years from the date of sale of the product, but no longer than 126 months from the date of manufacture of the device.
2. The device must be installed within 3 months of the date of purchase.

§3. Scope of the warranty

1. The warranty guarantees that the device retains at least 70 % of its nominal capacity for the warranty period or until 3,650 charge–discharge cycles are reached (operating range 10 %–100 %), whichever occurs first.
2. The warranty remains valid provided that the detailed installation, operation and maintenance requirements set out in the installation and user manual are followed.

§4. Diagnostics and communication

1. The purchaser must enable diagnostics of the device, including:
   - providing a communication link to the equipment,
   - performing a remote test at the guarantor's request.
2. Based on the diagnostic results, the guarantor decides whether to:
   - have the device sent to a service centre,
   - send a service technician to the customer,
   - or resolve the problem remotely.

§5. Partial refund

1. If the device cannot be repaired or replaced with a new one, the guarantor may refund part of the purchase price.
2. The refund amount is calculated on the basis of:
   - the current price of the product in the Sluxer range,
   - or the price of a product with equivalent or better specifications,

   but not exceeding the list price applicable on the date of purchase.
3. The refund amounts to 10 % of the lowest price determined under item 2 for each year remaining until the end of the warranty period.

§6. Product registration

1. Product registration is mandatory to benefit from full warranty protection.
2. Registration must be completed within 30 days of installation by registering the warranty at **sluxer.com**.

§7. Installation requirements

1. The device must be installed by a suitably qualified person in accordance with the installation manual.
2. The installation must be confirmed on the warranty form.
3. If the device is installed by an unqualified person or contrary to the manual, the warranty may be declared void.

§8. Capacity verification

1. The capacity check is performed at an ambient and internal device temperature of 20 °C–30 °C.
2. The measurement results form the basis for assessing the warranty claim.

§9. Exclusions

The warranty does not cover defects resulting from:

1. Improper transport, storage or installation.
2. Installation by an unqualified person or not in accordance with the installation manual.
3. Unauthorised modifications, repairs or tampering by unauthorised persons.
4. Operation contrary to the user manual or under conditions other than those recommended by the manufacturer.
5. Use of incompatible inverters, rectifiers or other parts.
6. Voltage fluctuations, surges, lightning strikes, floods, fires, mechanical impacts, water ingress or accidental damage.
7. Complete discharge of the battery caused by failure to follow the operating rules described in the manual.

§10. Submitting a claim

1. Claims should first be submitted to the seller from whom the product was purchased.
2. The claim should include:
   - proof of purchase,
   - the serial number of the device,
   - a detailed description of the defect.

§11. Final provisions

1. This warranty does not limit the consumer's statutory rights under the seller's liability for defects (rękojmia).
2. Matters not governed by this document are subject to the provisions of the Polish Civil Code.
3. This warranty document is valid only with the installer's signature and proof of purchase.
